

# DESTIN REPORTS

We can provide any number of reports by taking data from the core Revenue and Benefits system you have.

Our powerful VISION reporting tool can be used by numerous different departments and roles within Councils depending on privileges and access rights.

We provide full reporting on balances, liability, recovery, transactions and valuations as well as insightful analysis.

Listed below are a small sample of just some of the reports we have created for Local Authorities using our Revenues and Benefits Analytics and Reporting Software.

## Council Tax
